

# Refurbishing

Prices effective January 1, 2017.

## Handbells

### What does Malmark do when they refurbish handbells?

- Completely disassemble and thoroughly inspect each handbell
- Inform customer of inspection results and recommendations
- Machine polish each handbell casting inside and out
- Clean, adjust and lubricate each clapper assembly
- Replace restraining springs and clapper heads where necessary
- Qualified handles and handguards will be replaced at no charge if bells were purchased under Malmark's Lifetime Warranty
- Brass handleblocks will be replaced with those made of glass-filled nylon unless you specify otherwise.
- Reassemble and revoice each handbell.
- Hand polish each casting.
- Minor functional repairs on cases

See the complete list of 55 steps at the web site — <http://malmark.com/html/55steps.php>

### "HASSLE-FREE" SHIPPING

Malmark is pleased to offer you our "hassle-free" shipping plan. Once you have scheduled your refurbishing, we will send the appropriate shipping package to you which includes: cartons, filler materials, sealing tape, and complete instructions for packing and shipping your handbells to our manufacturing site. Once you have packed your handbell set, the carrier will pick it up and return it to us.

While the "hassle-free" shipping is not included in our refurbishing price, the time and effort saved as well as the peace of mind knowing your handbells are packed and shipped properly, make it well worth the additional expense. And your handbells are insured.
