Protect your investment.

Malmark's proven plush-lined case inserts provide superior support and protection against surface scratching and damage to the bell.

Spend more time rehearsing, less time packing.

An industry first, external note plates are standard on each case, allowing for quick identification of enclosed bells.

Lighten your load and your storage space.

Malmark's custom-formed design takes up less room and is lighter and easier to handle than our competition.

Designed for all travel

Malmark's custom designed bump-outs add stability and support to the case. With heavy-duty locking hardware, these ATA (*Air Transportation Association) approved cases are convenient and easy to travel with, anywhere your ringing may take you, whether you travel by car, bus, or aircraft.

Easier bell transportation

Equipped with an adjustable telescoping handle and durable in-line wheels, Malmark's travel cases can be used by ringers of any age, but are durable enough to stand up to even the most rigorous of travel needs.
